GUIDE AND INVENTORY TO THE NEWSPAPER CLIPPING FILE

The Newspaper Clipping File consists of scrapbooks and newspaper clippings filed by their year (and in some cases by their month) of publication.

Newspaper clipping folders dealing with a specific subject have been placed in the Subject File for easy access. Clipping folders dealing with Department Employees have been placed in the People File for easy access.

An entire newspaper, "The Seattle Star", for May 29, 1911, is included in the Newspaper Clipping File. A major article includes the prosecution of the Wappenstein case. Unfortunately, the newspaper is so brown, torn, and brittle, that restoration would be required to safely read the newspaper.
